

## QUICKSTART TENNIS COURTS

To give kids the confidence and ability to cover the entire court, score points and build an all-court game, the court is shorter and narrower. The net is lower than a standard tennis net.

**36' Court** For smaller children, the court dimensions are 36' long and 18' wide. This game can be played almost anywhere, with a portable net or tape to make the center line. On a regulation tennis court, you could play side-to-side, and actually have 4 games of 36' Court going on at once!

**60' Court** For older children or adults, the court dimensions are 60' long by 27' wide. This court size allows players to develop their skills until they are ready for the full-sized court.

tennis**

### EQUIPMENT

Sport Court offers a handy pop-up net and specialized racquet and ball kits for both the 36' Tennis kit and the 60' Tennis kit.

**36' Tennis Kit:** Includes 12 low-compression balls and two 21" racquets. The QuickStart Tennis net can be purchased separately.

**60' Tennis Kit:** Includes 12 low-energy tennis balls and two 25" racquets.

**Standard Court**  
(78' x 36')  
**60' Court**  
(60' x 27')  
**36' Court**  
(36' x 18')

### SCORING SYSTEM

With **36' court scoring** there are only seven points in a game, so match play is short and sweet. Kids play the best of three games; the first to score seven points wins the game. The first to win two games wins the match.

Players in **60' court scoring** play the best of three sets; the first to win four games wins the set. In the third set, the first player to win seven points wins the match.

Format	COURT SIZE	RACQUET	BALL	NET HEIGHT	SCORING
36' Court	36' x 18'	up to 23"	red foam or low compression felt	2'9"	best of 3 sets tie breaker to 7
60' Court	60' x 21' singles 60' x 27' doubles	up to 25"	orange foam or low compression felt	3'	best of 3, four game sets with the 3rd set tie breaker to 7

## WHAT IS QUICKSTART TENNIS?

**QuickStart Tennis is a new play format designed to introduce new players to the game of tennis.**

To make it easier for smaller players and to open up opportunities to play almost anywhere, several aspects of the game were modified. In addition to the regulation 78' long playing area, QuickStart Tennis can be played on a 60' or 36' long court. Smaller racquets and low-compression or foam balls help players work on timing and develop proper techniques. Even the scoring system and net heights have been adjusted . . . and the changes make the game more accessible for everyone! Because now anybody can start playing tennis almost immediately — even if he or she has never picked up a racquet before. And just like other popular youth sports, QuickStart Tennis stresses the importance of having fun and developing confidence.

## THE SPORT COURT CONNECTION

For over 35 years, Sport Court has been dedicated to helping families create backyard opportunities for fun and fitness. Sport Court pioneered the game of short-court tennis for the backyard and has since been helping adults and kids gain confidence and improve their tennis abilities right at home. One of the best ways for families to grow closer and for new friendships to blossom is to have your very own QuickStart Tennis/multi-sport game court right in your own backyard. With nearly 100,000 custom-built courts under our belt, you and your family will be working with the most knowledgeable and experienced court building network in the world. Sport Court products are manufactured under the highest quality controls, so you can be sure they will deliver years of enjoyment, performance and durability.

## SAFETY

No other modular surface surpasses the patented design of Sport Court's PowerGame™ for absorbing shock (based on ASTM F1292, which measures the likelihood of head injury as a result of a fall). Independent testing also confirms that our outdoor surfaces provide the highest level of traction and the lowest surface abrasion in the industry. Our athletic surface systems also feature our patented Lateral Forgiveness™ technology, which reduces stress on knees and ankles. Each of these features makes PowerGame the ideal surface for a QuickStart Tennis court where new players will find a friendly and forgiving surface to help them develop their tennis skills.

## MULTI-SPORT COURT

Adding QuickStart Tennis game lines is the perfect addition to your multi-sport backyard game court. Our high-performance surfaces allow you to play dozens of different games right in your own backyard. With less space needed for QuickStart Tennis, turning almost any surface into a multi-sport game court has never been easier.

## DON'T JUST TAKE OUR WORD FOR IT

At Sport Court, we love the game of tennis and are proud of the role we've played in helping to bring the game home to families since 1974. Because of our commitment to the sport and our extensive modular tennis court construction history, we've been named the "Official Supplier of Modular Flooring" for the USTA. In addition to the USTA, we have been chosen by many of the leading governing bodies of sport to surface their championships and events.

**Our experience working with the USTA® and other respected organizations including the NBA®, NCAA® and USA Volleyball® have assisted us in the development of stronger, safer and better performing sports flooring systems.**
